

The most practical accounting system that can be developed is one that will show the maximum amount of accurate, reliable statistics and suggestive cost . More The most pragmatic accounting system that can be designed is one that will show as many accurate, reliable statistics as possible and suggestive of cost ... More I already have a definite pattern to my research. I conduct an experiment. At the end of each week I write a report on what worked, how and why. In the report I answer the question, "What happened during the week?" At the end of the month I write a report, "What happened during the month?"
