Click "Start Creating Ringtone" to save your custom ringtone.Q: can't create an instance of an object I'm trying to create a human application. I've started with a small console application (I've made a dll for that), but when I try to access the DLL from another application, it can't create an instance of my class : MyClass cls = new MyClass(); // OK When I try to create it in an other class, it can't get the dll object : MyClass cls = new MyClass(libPath + "MyClass.dll"); // can't get MyClass What should I do? A: What should I do? That's an awful lot of effort to go to just to be able to
