## StatTrak Address Manager Crack (Latest)

StatTrak Address Manager is a neat name and address management program for business or home use, it allows you to enter and store addresses, print address labels, envelopes, post cards and address reports. Explore various sections Existing address lists can be imported from a comma delimited file (CSV file extension). You can organize and group related entries using Address Types (e.g., Business, Family, Friends). To add additional custom Address Types, select Edit Address Types in the Address Types drop down list. When adding a new entry, you may assign it to one or more Address Types. The individuals section is designed to store separate information for each individual at the same household or address location. More features and tools The application allows you to back up your data regularly to protect against loss due to power failure, disk damage or other mishaps. You can copy your data from one computer to another using the Backup and Restore database features. The Reminders option displays reminders for birthdays and important dates when you first start the StatTrak Address Manager program. The Address Quick Recall option tries to match your entry to what you've previously entered. The quick recall feature is designed to save time and reduce errors during data entry. ...
